Enriching Your Life Through Painting.

Adult Art Class

This popular class is for those that wish to paint in a small group of adults with the teacher's guidance and advice. You can paint with oil or acrylic paint.

A great opportunity to create your own artwork to hang up at home.

Adult Art Class

Our Adult Artists have produced stunning work and many have started with little or no experience. If you want to start painting as a past time and do something creative then we highly recommend this class.

Each session is for 3 hours - you can bring your own paint set and canvas or buy from us.

Adult Art Jamming™

Art Jamming™ involves coming together with a group of friends to paint and be creative. Take home your very own painting at the end of the session. This is for anyone who wishes to paint, hangout with friends, celebrate a birthday or just do something different for change.

We will give you everything you need: initial guidance, canvas, all paints and equipment to create your own artwork. Art Jamming lasts for 3 hours and you are welcome to bring your own food and drink.

So What's The Difference Between Adult Art Class & Adult Art Jamming?

Good question! In short Art Jamming gives you a taste and is ideal for beginners and parties. We give enough guidance to start you off to produce something in 3 hours. However the Art Class allows you to be more ambitious as the teacher will demonstrate how to move from stage to stage allowing you to learn and develop as an artist.
